ON THE

Yankee Card Press,

Corner of Central and Third Streets.

LEONARD HUNTRESS, Book and Job Printer,

Has purchased the Yankee Card Press, a machine recently invented by Mr. Samuel Orcutt, of Boston, exclusively adapted for the Printing of Cards. Considering the simplicity of the construction of this press, and its neatness of finish, its great accuracy and beauty of execution, with its rapidity and ease of movement, it is not surpassed by any other machine or press, exclusively for Card Printing, invented.

The proprietor of this machine is now prepared to receive orders for every description of CARD PRINTING, which will be executed on Enamelled Premium, Ivory surface, Embossed, Gold Bordered, Gold Edged, and common plain and tinted cards, in a superior style, with black, red, green, or blue ink, or with gold, silver, or copper bronze, at prices *lower than at any other office in this city.* Address, Visiting and Marriage Cards, executed on embossed, and other suitable cards, in a beautiful style, nearly equal to those engraved, and at much less cost.

JOB PRINTING

Of every description, executed in a neat style and at very small prices. The improvements lately made in the job printing office, are very extensive. At the foun-

Books and Pamphlets.

The office is furnished with a large quantity of new and nearly new Book type. This, connected with the beautiful Power Press, enables the proprietor to turn off with *great rapidity*, and at *reduced prices*, Books, Pamphlets, Catalogues, &c. &c. Persons in want of this kind of printing, can learn the prices and examine specimens of the work by calling at the office.

N. B.—At the above office is printed the *Lowell Courier*, three times a week, Tuesday, Thursday and Saturday mornings, at \$3,00 a year,—and *The Lowell Journal*, once a week, Wednesday morning, at \$2,00 a year.

LOWELL CEMETERY.

For the attainment of the valuable lot of land devoted to this purpose in its present convenient position as to the road bounding its whole front, and the view pledged to be kept open forever of the Concord River along the same line, our citizens are mainly indebted to the liberality and public spirit of OLIVER M. WHIPPLE, Esq. A sense of the need of some such provision as is here made for the last resting place of those dear to them, had been for some time growing in the minds of several of our citizens when, during the last summer, public attention was called to the subject, and a meeting was held August 1st, 1840, of those disposed, in any way, to aid and encourage the undertaking. At this meeting a large Committee was appointed to take the whole subject into consideration, and report.— Preparatory to making their report they appointed a sub-committee to examine the various desirable and attainable situations in the neighborhood; which they did and reported unanimously in favor of the lot now purchased for a Cemetery. Upon the report of the Committee, at a meeting of the citizens, August 22, a new Committee was appointed further to consider the subject, and make estimates and suggest plans for its successful prosecution.— This Committee reported that the present lot, known as the "Fort Hill lot," to which they also unanimously gave the preference over all others, could be bought for five

thousand dollars, deducting the interest on four thousand dollars of the purchase money for such time as that sum should be paid before notes given by Mr. Whipple for that amount in part payment of the land should become due; and recommending that papers should be circulated for subscriptions for lots in the proposed Cemetery containing three hundred square feet, at ten dollars each, with liberty to the Religious Societies and the Manufacturing Corporations to take five or more lots in one parcel; the subscriptions to become binding whenever five hundred lots should be subscribed for. The report was accepted, and the course indicated adopted; and at a meeting of the subscribers on the 19th day of October, five hundred lots having been subscribed for, the necessary officers were chosen and committees appointed to carry into effect the wishes of the subscribers. Immediate steps were taken to collect in the subscriptions, and nearly all were obtained by the 19th day of December, 1840, when a deed was taken and the land paid for by the Trustee appointed for that purpose. Thus so far completing in a few months an undertaking that to its successful prosecution to the same extent in almost every other place where it has been undertaken at all has required for years the untiring efforts of its projectors and more immediate friends. Some progress has been made in laying out the ground preparatory to placing the lots, which it is hoped will be fully done during the present winter and a lithographed map made of the whole for the use of those interested. It is situated on the old Salem road just across the Concord river, near Mr. Whipple's Mills, and is about a mile and a half from the City Hall. Measuring on the road about 950 feet it runs back about 1950 feet, and contains nearly 44 acres of well wooded land, presenting great varieties of surface. The original lot did not bound on the road for the whole front, a small wedge-formed lot intervening at one end belong-

ing to Mr. Whipple, who generously included this parcel in his deed to the Trustees, and also a right to have and keep open forever an unobstructed view of the Concord river across another lot of his land lying between the road and the river in front of the Cemetery, without any charge for so doing. A few years attention to this place must make it a very desirable place of resort, and as it is not contemplated, at present, to have any one placed in charge and upon the spot at all times, it is hoped that each visitor, whether subscriber or not, will find within its walks emotions and sentiments excited within him that will forever preclude the necessity of any other keeper than his own serious and holy reverence for this home of the dead.

LOWELL INSTITUTION FOR SAVINGS.

(For list of officers, refer to list of Banks.)

The design of this institution is to afford, to those who are desirous of saving their money, but who have not acquired sufficient to purchase a share in the Banks or a sum in public stocks, the means of employing it to advantage, without running the risk of losing it, as they are too frequently exposed to do, by loaning it to individuals, who either fail or defraud them. It is intended to encourage the industrious and prudent, and to induce those who have not hitherto been such, to lessen their unnecessary expenses, and to save and lay by something for a period of life when they will be less able to earn a support. To promote these desirable purposes, the following rules, among others, have been adopted.

Deposites or moneys put in, will be received as low as one dollar, and when any person's deposits amount to five dollars they will be put upon interest.

To save expense, the institution will be open only on Thursday and Saturday evenings, from 7 to 9 o'clock.

All entries on Thursday evening, will bear date of the succeeding Saturday.

Twice every year, viz, on the first Saturday of May and November, a payment of interest, at the rate of two dollars on every hundred dollars, that may have been deposited two quarters, and one dollar for every such sum as may have been deposited one quarter, will be made, and so in proportion for smaller sums, which will make four dollars on a hundred dollars each year. And at the end of every five years, all the extra income which has not before been paid and divided, will then be divided among those who have been depositors for at least one year, in proportion to the interest which may have accrued on their deposits during the preceding five years; and nothing will be deducted from the extra income, but the actual expenses of carrying on the business and taking care of the money.

Those who do not choose to take their interest from time to time, may be assured that it shall be added to their deposits, and put upon interest at the end of three months; thus compounding their interest twice a year.

Any part, not less than ten dollars at a time, if more than that sum be deposited, or the whole of any depositor's money may be drawn only by giving a week's notice, as the Trustees could not lend it or invest it to advantage if liable to pay it without any notice.—Deposites will be entered in the books of the institution, and also in a book to be given to the depositor. This book will be the evidence of their property, and as valid as a note of hand. When money is drawn out, this book must be brought to the office to have the payment entered. Depositors may take out the money themselves, or in case of absence or sickness, it will be paid to their order, properly witnessed and accompanied by this book.

If persons die, who have money in the Savings Bank, the money will go to their heirs, or the persons to whom they may have given it by will with certainty. If less than fifty dollars, to be paid without the expense of administration. It cannot be placed where it will be more safe, as it respects the honor and fidelity of management. Persons who put in money, must sign the rules and agree to conform to them. This is necessary for the security of all parties. Money can be deposited by any person for

the benefit of a minor or other person, and not subject to be withdrawn for a certain period of time.

The certain safety of the institution will make it particularly useful to persons, who are in possession of money received as wages, gifts, or gratuities, for which they have no immediate use, and which they wish to lay up for a rainy day.

Widows and children may, also, thus be safely provided for. A young man intending to marry at a future day, and young women, who may expect to change their condition, can here securely lay up a sum against a time when they may want it more.

As it would be impracticable to compute the interest on numerous deposits, unless it is made to commence from a few fixed periods, the deposits made during any quarter the first day, will not be put upon interest until the first day of the succeeding quarter. The quarters commence on the first Saturdays of February, May, August and November; and no interest will be allowed for a fractional part of a dollar, or on a larger sum than five hundred dollars to any one depositor.

The Trustees, having undertaken to conduct the institution solely to promote the interest of the city, shall never receive any emoluments therefrom, but may allow a reasonable compensation to the Treasurer and such other officers as may be found necessary.

Payments shall be made in current Bank notes, or specie—the Treasurer receiving only such in deposits.

No loans shall ever be made to any officer of the institution.

The Board of Investment shall direct the investing of the funds of the institution at their discretion, either in the stock of the United States, or of this State, or in the capital stock of some of the Banks of the city of Boston, or in the Bank of the United States, or in either of the Banks in the County of Middlesex, or in loans to any of the Banks in the Counties of Suffolk or Middlesex, or to any County, City or Town in this Commonwealth, or in private securities, with either of the above-mentioned stocks, or securities as collateral, and no other, at the rate of ninety cents in the dollar of their par value:—Or in loans, on mortgage of real estate within this State: provided that the whole amount loaned on mortgage shall not at any time exceed a third part of the whole funds of

the Institution at the time of making the loan, and that no loan shall be made for more than half the value of the estate pledged—and that no such loan shall be made for a longer period than two years.
